- Innovative solutions
- Constant Investments in People & Technology
- Free quotes, collections & deliveries
- 99.1% reliability

## COMPLETE PLANT MAINTENANCE LTD

CPM Engineering has over 30 years of experience in electro-mechanical maintenance services.

Our workshop is one of the largest in the UK and represents a £3M investment. It hosts our 15-tonne lifting facility, dedicated Servolab Department, Pump Testing Facilities and it is manned 24/7 by our specialist engineers.

We ensure that you have the maximum uptime with top performance at the lowest cost, by acting as an extension of your maintenance team.

We care about reliability and quality, just as our customers do, which is why we offer a complete spectrum of services, no matter the size of your business. From reactive to proactive solutions, we ensure that failures are solved/prevented, problems are fixed from the root and that your performance is improved.

## OUR SERVICES

"I need an emergency repair that is cost-effective, fast and reliable."

"I want to improve MTBF and reduce energy costs."

"I want to prepare a preventive maintenance strategy by knowing how my critical assets are performing."

"I want a tailor made solution that caters to all my maintenance needs, while reducing my current costs."

### REPAIR

Unexpected failures may occur due to unforeseen circumstances. This is when a repair may be the best option when critical problems arise, and time is of the essence.

**MINIMIZE  
DOWNTIME**

### REPLACE

When a more suitable machine is required, or a repair is impractical / uneconomical replacing becomes the most appropriate solution to extend the MTBF.

**INCREASE  
EFFICIENCY**

### MAINTAIN

If you want to move from ad-hoc repairs to a more proactive approach, but not yet ready for a Fixed Term Agreement, CPM will work with you, to develop and perform predictive maintenance programmes.

**MAXIMIZE  
PRODUCTION**

### MANAGE

Fixed Term Agreement where CPM takes the risk and neither party benefits with a machine failure. While Managed by us, if they fail, we pay the bill.

**REDUCE  
COSTS**

## FULL SOLUTION PROVIDER

ONE SINGLE SUPPLIER THAT ENSURES THAT YOU HAVE THE MAXIMUM UPTIME WITH TOP PERFORMANCE AT THE LOWEST COST

"Brilliant from start to finish! Can't fault anything. Quick quotation - received within an hour of speaking to someone. All backed up with very good technical support. Even the distance didn't detract from the service level provided."

Key Account Manager  
Machine Manufacturer

"Very good service and a quick turnaround. Until working with CPM we used to buy new, I wouldn't go back now! In addition to making huge savings which we can pass to our customer, retaining our competitive edge, we also save ourselves time and money and the fast turnaround and ability to hold back up stock reduces customer's downtime."

Spare Parts Supervisor  
Food Processing Systems

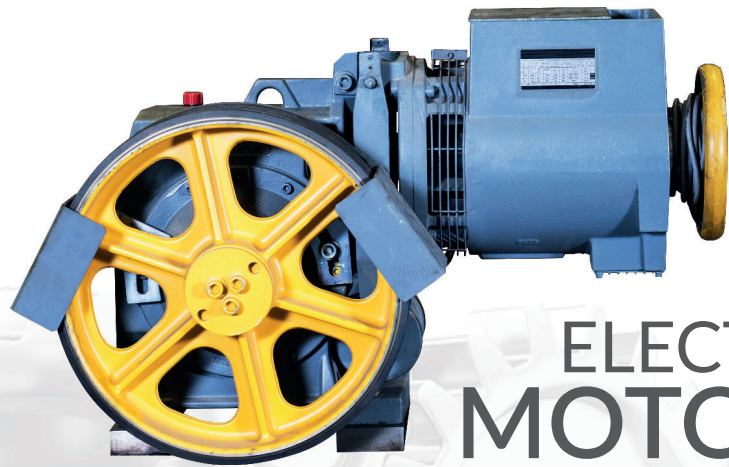

"We honestly can't find fault with CPM. Their speed of response and service levels are excellent, and they always keep us up to date on job status. They are even working with us to forecast inherent issues and trends to predict future requirements before they cause us real pain. Can't ask for more!"

Branch Manager  
Facilities Management Company
